

Request: Classroom Technology Enhancements

Cost	\$14,000
Admin Fee	\$840
Total	\$14,840

Description, Rationale and Alignment:

I am requesting funding to integrate technology into our classroom/meditative space. This enhancement will serve several purposes: creating more attractive and enriching educational programming, providing updated technical features for meetings, and increasing technological accessibility in our current space. This proposal aligns with our institution's strategic priorities around student success and engagement. By investing in technology that supports well-being, we are not only enhancing the student experience but also contributing to a healthier, more resilient campus culture.
